**LEGAL NOTICE**

**STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.**

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m., on **TUESDAY, FEBRUARY 20, 2001**, upon the application of **HS RESOURCES, INC.**

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the **A Sand, Reservoir B, B Zone, Reservoir A and C Zone, Reservoir A**, in the Ramos Field, Assumption Parish, Louisiana.

**A SAND, RESERVOIR B**

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the A Sand, Reservoir B.
2. To create a single drilling and production unit for the A Sand, Reservoir B, designated as the A RB SUA as shown on the plat submitted with the application.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the units so created on a surface acreage basis of participation.
4. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such other matters as may be pertinent.

The A Sand, in the Ramos Field, Assumption Parish, Louisiana, was previously defined in Office of Conservation Order No. 389, effective December 1, 1957.

**B ZONE, RESERVOIR A**

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the B Zone, Reservoir A.
2. To create a single drilling and production unit for the B Zone, Reservoir A, designated as the B RA SUA as shown on the plat submitted with the application.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the units so created on a surface acreage basis of participation.
4. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such other matters as may be pertinent.

The B Zone, Reservoir A, in the Ramos Field, Assumption Parish, Louisiana, is hereby defined as that gas and condensate bearing zone found between the depths of 14,653' and 15,105' (ELM) in the British Petroleum - Intercoastal Shipyard No. 1 Well, located in Section 46, Township 16 South, Range 13 East, and includes the B Sand which was previously defined in Office of Conservation Order No. 389-A, effective December 1, 1957.

**RAMOS FIELD**  
**01-116 thru 01-118**

**C ZONE, RESERVOIR A**

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the C Zone, Reservoir A.
2. To create a single drilling and production unit for the C Zone, Reservoir A, designated as the C RA SUA as shown on the plat submitted with the application.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the units so created on a surface acreage basis of participation.
4. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such other matters as may be pertinent.

The C Zone, Reservoir A, in the Ramos Field, Assumption Parish, Louisiana, is hereby defined as that gas and condensate bearing zone found between the depths of 15,155' and 15,680' (ELM) in the Cox - Intercoastal Shipyard No. 1 Well, located in Section 44, Township 16 South, Range 13 East, and includes the C Sand which was previously defined in Office of Conservation Order No. 389-E, effective August 1, 1968.

Plats are available for inspection in the Office of Conservation in **Baton Rouge** and **Lafayette**, Louisiana. All parties having interest therein shall take notice thereof.

**BY ORDER OF:**

**PHILIP N. ASPRODITES**  
**COMMISSIONER OF CONSERVATION**
